Possible answer:

When Sleeping Beauty is a baby, her parents have a birthday party for her. They don't invite the wicked witch. She is angry and she comes to the party. She says, 'Sleeping Beauty will prick her finger and die.' When Sleeping Beauty is 16, she finds a spinning wheel. She pricks her finger on the spinning wheel. She doesn't die, but she and everyone in the palace sleeps for 100 years. In this time, a forest grows around the palace. A prince is riding his horse and he finds the palace. He finds Sleeping Beauty and wakes her up. Everyone in the palace wakes up too. Everyone is happy and they all live happily ever after.
