

Ready, Steady, Grow!

Ready to learn, ready for school,
ready for anything!

Why choose Ready, Steady, Grow!

1

Characters reflect emotional development

Go on adventures with best friends Sofia and Daniel at home, in class and out exploring alongside Hug, a cuddly sloth, and Hummy, an energetic hummingbird. Sofia is adventurous and confident whilst Daniel is thoughtful and shy. They're opposites but make a great team and show that it's okay to be different, and that you can try new things and learn from your mistakes!

2

Wellbeing in every unit to build resilience

Wellbeing is woven into the course through routines, songs, activities and games. Children will learn how to describe their emotions, develop self-awareness, and feel emotionally and physically safe. Take a deep breath. How good does that feel? That's how children will finish every lesson. After singing the Goodbye Song, using their arms as wings (like Hummy's!), they focus on their breathing and reflect on what they are proud of.

3

Manage your mixed-ability class

Nurturing the potential in all children is a key focus. At this age, every child is developing and learning at a different rate. For fast finishers, there's "Extra" activities on every Pupil's Book page. For those that need more support, there's a variety of activities that will appeal to all children, teaching tips in the Teacher's Book and dedicated review lessons to identify gaps in learning.

4

Prepare very young learners for school

While doing simple tasks, children are learning the social skills, motor skills and behaviours they need for starting school. Activities help them think critically and creatively and develop emotionally. Look out for the Cambridge Life Competencies icon at the beginning of every lesson in the Teacher's Book.

5

Digital adventures in class and at home

The characters, stories and songs come alive before your eyes! Each unit has four videos and six interactive activities. With digital support for both teachers and learners in Cambridge One, classes will be interactive and children can share their learning at home.

6

Watch learners grow

The easy-to-use Teacher's Book has all the support you need. Spend less time preparing for lessons and more time enjoying them! From role plays and acting out stories to drawing and crafting, you'll love seeing children having fun, laughing together and growing in confidence.
