- When I was about eight I was bitten by **a** dog outside school. I remember that day very clearly. I was shouting at **a** friend of mine, who was crossing **the** street, when **a** man walked past with **a** huge dog. When **the** dog heard **the** noise he was frightened, so he bit me on my leg. **The** bite was quite deep and I had to go to hospital. I've been scared of dogs ever since.
