See the world in London!

You're a teenager and you've only got one or two days in London. But there are 240 museums in London! What can you do? The Flight Magazine team suggest these three great ones...

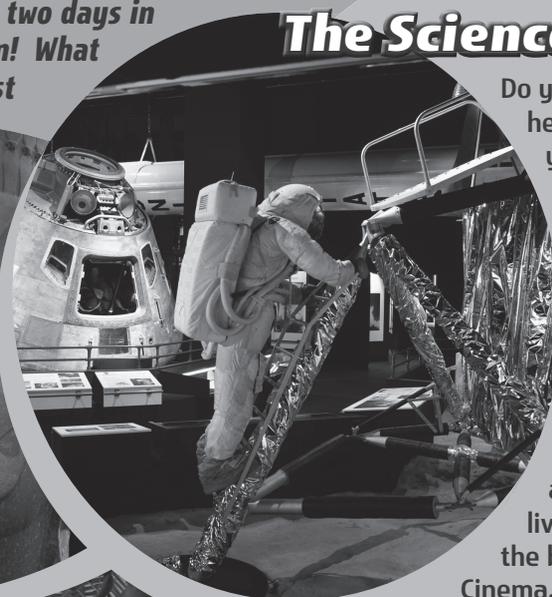

The British Museum

This is one of the biggest museums in the world. It is 250 years old and six million people visit every year. It's got collections of objects from every continent in the world. They tell us the story of human culture. Lots of teenagers say their favourite place is The Ancient Egypt galleries. They go there to see the mummies. You can meet a mummy called 'Ginger'. Ginger's got red hair and he is 5,400 years old! And meet Nesperennub. He's a mummy, too. But he's only 2,900 years old. He's inside a beautiful coffin and you can see inside – a special computer helps you see his face!

The Science Museum

Do you like aeroplanes, helicopters and rockets? Do you like computers and space travel? Yes? Then the Science Museum is for you. You can find out all about these inventions, touch them and meet scientists who work with them. You can see real rockets and satellites and learn about how astronauts live in Space! But we think the best thing is the IMAX 3D Cinema. It shows cool 3D films of dinosaurs, prehistoric sea monsters and life on a space station! Finally, you can take science home with you. How? The Science Museum sells a popular computer game called *Launchball*. Play and learn at the same time!

The Natural History Museum

The Natural World is amazing! Learn about your favourite animals here. Go to the Dinosaur Gallery – there are 35 giant models of dinosaur skeletons. The most famous dinosaur is called Dippy, he is 32 metres long. In the Life Gallery there is a real skeleton of a blue whale. And you must visit the Darwin Centre. Real scientists work here. It's got 20 million types of insects and plants from around the world. Finally, go outside, you can see lots of trees, flowers and animals in the beautiful Wildlife Garden, all in the centre of London!

Project space Our museum visit

5 Plan a trip to a museum in your town. Write an email to your friend. Explain what you would like to see and do. Write about:

- the name of the museum
- an interesting fact about this museum
- the name of the exhibition or object you want to see
- an adjective to describe it (beautiful, modern, exciting, incredible, cool, etc.)

You can begin the sentences like this:

Let's go to This museum's got/is
 Let's see It's/They're
 It is
