Yesterday, it **rained** all day, but it was great because I **finished** all my work! In the morning, I **washed** the dishes, I **tidied** my room, I **cleaned** the windows and I cooked lunch – it was delicious. After lunch, in the afternoon, I cleaned the floor in my bedroom. Then I **phoned** my grandmother and I listened to her problems – she talked for a long time! In the evening, I studied for an hour because I've got an important exam next week. Then Mum **arrived** home and she **decided** to make spaghetti for dinner. After dinner, I wanted to play on the computer but it was very late so I watched TV with Mum and Dad and we **talked** about the day. It was 10 o'clock and I was very tired so I decided to go to bed.

It's raining again today, but now I'm bored – I haven't got anything to do!
