Famous places in Andalusia

Roman sites in Andalusia

1 Read the article. Choose a place to visit and tell a friend.

Did you know the Romans arrived in Andalusia in the sixth century? They named the region *Baetica* after the river *Betis* (the Guadalquivir). The Roman emperors, Trajan and Hadrian, were born there. Today you can visit Roman sites and imagine what their life was like hundreds of years ago.

Baelo Claudia, Tarifa

This is an amazing place for a day trip, next to Bolonia Beach. You can see a square, a theatre and even a necropolis. Baelo Claudia was an important port and fishing village.

Acinipo, Ronda

Only 21 km from Ronda, Acinipo was a great Roman city. There were hot springs for baths and lots of houses, too. Today you can see the theatre where actors performed in Roman times.

Hedionda Roman Baths, Casares

The Romans built these baths and the Arabs maintained them. Julius Caesar enjoyed this water which contains iron and sulphur. Today you can experience life as a Roman emperor and have a bath here.

Itálica, Seville

This was the first Roman city outside of Italy and an important commercial centre. You can see beautiful mosaics, ruins of public buildings and an impressive theatre here. Itálica was an important commercial centre during the Roman Empire.

Roman Theatre, Málaga

Right in the centre of Málaga, this incredible site was discovered in 1951. The Romans built the theatre in the first century BC and used it until the third century AD. Today, 220 spectators can attend open-air shows.

Technology and sustainability

Producing electricity in Seville

1 Read about oranges. Why are oranges a problem in Seville?

Oranges first came from Asia. The Arabs brought them to Spain about 1,000 years ago.

The streets of Seville are full of orange trees. In spring Seville smells of azahar, the beautiful flowers that blossom on orange trees. But in winter tons of oranges fall from the trees and fill the streets. And that's a big problem for the city.

One solution is to recycle the oranges. Oranges and other fruits can be collected to produce methane. The oranges ferment and produce biogas. The gas is then captured and burnt, and this generates electricity!

One local water company has a plan to use Seville's bitter oranges to produce energy for water purification. They also use oranges to make organic compost for local farmers.

The next time you drink a glass of orange juice, remember how many different things this amazing fruit can do!

3 Read the statistics in pairs. Then close your books and play a memory game.

Amazing statistics

There are over **50,000** orange trees in Seville.

Each year **5.7m** kilos of fruit are collected.

1,000kg of oranges can produce enough electricity for five homes.

In 2020, a local water company produced energy for **5,800** homes in Seville from organic waste.

Extreme sports in Andalusia

2 Look, read and match with the photos in Activity 1.

Andalusia is a fantastic place to do sport outside. You can swim and sail in lots of places. You can also do some unusual sports too. Would you like to try these?

1 Skydiving

The most exciting sport you can imagine. Jump out of a plane and fly quickly through the sky. When you open the parachute, you fall slowly and land on the ground. Your first dives are in 'tandem' which means you jump together with a guide.

2 Kitesurfing

People travel to Tarifa from all over the world to practise this sport. The town is now called the Kiting Capital of Europe. A combination of wind and water make kitesurfing a difficult sport to learn. It's a beautiful sport to watch from the beach.

3 Snowboarding

Can you ski? You will love snowboarding! Sierra Nevada is the perfect place to learn. You can rent equipment and join classes in the winter. People say that it's easy to learn to snowboard. It's similar to surfing, but on snow not on water.

4 White-water rafting

Popular in many countries, you can try this sport in the province of Granada. One route starts in Órgiva in Las Alpujarras. Get on a raft at the campsite and travel down river for 5 km. The best time is spring when the river Guadalfeo has lots of water.

5 Scuba diving

The Costa del Sol is an incredible place to go diving. Explore the Mediterranean coast and see fish and coral underwater. Take classes with a qualified instructor who will teach you how to dive safely.

He came to a stop in the trash near a tree. He had to be whisked to hospital; he had a sprained wrist and a cracked skull. 'Next time I'll use a train for transport!' he thought to himself.
