Live. Learn. Feel.  
Join us on the journey  
to successful learning.

Join us at the centre of our mission as Andrea Tolve and Mark Meredith explore student-centred learning, the journey to get there and the rewards we receive upon reaching it. Set off on your own personal pathway of discovery exploring a world of communication, collaboration and creativity. In the next stage of our challenge we will take a look at how we can apply these competencies and life skills into the learning journey.

Tom Wogan will then delve into the realm of critical thinking, consider a working definition of the term and look at different activities, for both

in and out of the classroom, to sharpen our students' critical faculties.

Andrea and Mark will round-up the morning looking at how there's much more happening in the classroom than simply teaching and learning English and learning through English. We want our learners to achieve academic success and to feel confident in English; however, we want them to give equal importance to lifelong success, personal development and well-being. In this session we'll consider some of these choices and then explore ways of achieving this through practical classroom ideas.
