Live. Learn. Feel.  
Join us on the journey  
to successful learning.

Join us at the centre of our mission as we explore student-centred learning, the journey to get there and the rewards we receive upon reaching it, with Andrea Tolve and Mark Meredith. Set off on your own personal pathway of discovery exploring a world of communication, collaboration and creativity.

Simon Ward will bring the journey to a close by looking at the concept of positive education which seeks higher academic achievement, alongside the development of well-being. This places an emphasis

on the whole child with a focus on social, emotional and psychological skills. Research demonstrates that when qualities such as curiosity, resilience, a growth mindset, perseverance and relationship skills are developed in pupils, there is an increase in motivation and they are more successful not just in school but in wider society. In this presentation, participants will be introduced to a model that brings these ideas together and can be incorporated into life and work of the classroom.
