Welcome to the Cambridge Experience 2022, the very first as Cambridge University Press and Assessment!

We will kick off the event by exploring what it means to be an inclusive teacher, looking at strategies and techniques that encourage learners to participate in class and take an active role in their education. After this first session, we will welcome Rachel Paling as we explore how professional coaching can change patterns

of communication and how metacognition and neuroscientific research can impact the learning process. Rachel will also share some practical steps to implement in the classroom. We look forward to seeing you for a morning full of ideas, inspiration and discovery!
